## Charlie Cichetti

CEO & Co-Founder

LEED AP BD+C, ID+C, O+M, ND, Homes

### Summary

Charlie Cichetti is proud to be one of the leaders in the green building industry. He has built a career around green building services, and leads two companies that hold sustainability leadership as core values—Sustainable Investment Group (SIG) and Green Building Education Services (GBES.com).

Both companies allow Charlie the opportunity to put his high-level LEED expertise and accreditation to work. He has led many green building projects (over 50 Million SF of LEED/ENERGY STAR/Cx-RCx) to LEED Gold, and even a few to the highest mark: Platinum. He has facilitated online and in-person training sessions that have helped tens of thousands of professionals obtain LEED accreditation.

Charlie is a master trainer on sustainability topics and a LEED & ENERGY STAR Expert. LEED Accredited Professional in the following areas:

- Building Design + Construction (BD+C)
- Operations + Maintenance (O+M)
- Interior Design + Construction (ID+C)
- Neighborhood Development (ND)
- Homes

Quite simply, Charlie is invested in the success of the green building industry. He believes in it and is working with people and buildings around the world to create the highest level of sustainability possible.

### Recent Speaking Engagements

- Provided WELL Training in Stockholm, Sweden for the Sweden Green Building Council (2019)
- Helped the country of Saint Lucia go from zero to 34 LEED professionals with our training (2019)
- How to Apply LEED to Huge Buildings like Skyscrapers, Stadiums, and Convention Centers in Doha, Qatar (2018)
- LEED Exam Prep Workshops as part of Greenbuild Europe 2018 in Berlin, Germany
