Asa Posner

Senior Sustainability Manager
LEED AP BD+C, O+M

Summary

Asa Posner's career has focused solely on sustainability in the built environment. He developed an interest in the effects of urbanization, construction, and human impacts on ecosystem health and parlayed that into a fulfilling career of providing sustainable design, construction, and operations consulting. At SIG, Asa leads the company's Minneapolis office. With accreditations as a LEED AP BD+C and O+M, he has consulted on over 200 LEED projects encompassing over 50 million square feet of LEED certified space. Asa has worked on many different project types – new construction, major renovations, commercial interiors and tenant build-outs, core and shell developments, K-12 schools, warehouses and distribution centers, data centers, existing office buildings, and even convention centers and sports stadiums.

This in-depth consulting expertise has allowed Asa the opportunity to relay his knowledge and educate many professionals on how to incorporate sustainable best practices into their design, construction and operations projects. Asa is an avid, expert speaker and has a passion for green building education, having taught hundreds of professionals (architects, engineers, contractors, and real estate professionals). Asa specializes in LEED exam prep courses, specifically the LEED Green Associate, LEED AP BD+C, and LEED AP O+M exams.

Recent Speaking Engagements

- Numerous LEED exam prep courses for the LEED Green Associate, LEED AP BD+C, and LEED AP O+M exams (2012 – present)
- A Zero Waste Super Bowl and The First LEED v4.1 O+M Platinum Sports Stadium – Sustainability at U.S. Bank Stadium (IMPACT Conference Performance Summit – 2020)
- LEED v4.1 O+M: Accelerating Market Transformation Through Arc's Data Driven Performance Scores (ASHRAE MN Energy Expo – 2018)
- A History of LEED at Target Field: New Construction, Existing Buildings, & Arc (IMPACT Conference – 2018)
